PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in React.js, Node.js, Express.js, and MySQL, gained through two internships and real-time full-stack projects. Solved 300+ DSA problems on LeetCode.

Skills

Languages: Python, JavaScript (ES6+), C++, SQL

Frontend: React.js, Tailwind CSS, HTML

Backend: Node.js, Express.js, REST API Design & Testing

Database: MySQL

Tools: Git, GitHub, Jest, Render, Netlify, VS Code, Postman

Concepts: Data Structures & Algorithms, Operating Systems, DBMS, CN, Object-Oriented Programming

Experience

Vertokit Jan 2026 – Present

Software Engineer - Intern

- Built a React and Node.js restaurant billing application handling order pricing, billing, and daily sales reporting for point-of-sale workflows.
- Applied split-billing logic across multiple people with exact-cent accuracy and dual card/cash pricing rates on every order.
- Fixed a production timezone/DST bug using a Jest test suite, ensuring late-night orders were assigned to the correct business day across daylight-saving changes.

Bluestock Feb 2025 – March 2025

Software Development Engineer Intern

- Developed a fintech web platform with React, featuring IPO tracking, broker comparison, and market analysis.
- Displayed live financial data through interactive charts and integrated with backend APIs for IPO listings.
- Organized reusable, component-based routing across the platform, with animations and a responsive styled-components UI.

Projects

StagePass | React.js, Node.js, MySQL, Tailwind CSS **GitHub**

- Created a full-stack event booking platform with event discovery, interactive seat selection, and secure checkout.
- Designed an interactive seat selection page where a user picks a seat, and it gets temporarily locked so no one else can book it at the same time.
- Added event discovery with genre-based filtering and search, along with an admin dashboard for managing events, users, and orders.

FinTrack | React.js, Node.js, MySQL, Tailwind CSS **GitHub**

- Implemented a full-stack personal finance web application using React.js, Node.js, Express.js, and MySQL, including secure authentication.
- Managed core financial modules including expense tracking, income logging, and monthly category-wise budgeting, with a real-time dashboard summarizing spending and budget progress.
- Set up a responsive, component-based UI with React Router and Tailwind CSS, using Context API for global auth state and protected routing to secure all authenticated pages.

Education

Netaji Subhash Engineering College – Kolkata, India Sept 2021 – July 2025

- B.Tech – Computer Science and Business Systems **CGPA**: 8.03/10.0

Premier Academy – Muzaffarpur, India June 2018 – July 2020

- Intermediate – Physics, Chemistry, Mathematics **Percentage**: 70.8/100.0

Achievements

- Solved 300+ DSA problems on LeetCode.

Certifications

- SQL Bootcamp (Udemy) and Python Bootcamp (Udemy)
